

# Takashimaya Company, Limited

Takashimaya Reports Earnings for the Three Months Ended May 31, 2013

## 1. Qualitative Information about Consolidated Operating Results

### (1) Summary of Operating Results

Total consolidated sales and other operating revenue for the Takashimaya Group rose 3.2% from the previous fiscal year, to 214,007 million yen. Consolidated operating income was up 3.6%, to 6,094 million yen, and consolidated ordinary income increased 21.0%, to 7,715 million yen. Consolidated net income climbed 4.0%, to 4,016 million yen.

In the first three months of the fiscal year ending February 2014 (March 1, 2013–May 31, 2013), the Japanese economy began to look more hopeful, thanks to a recovery in corporate performance that accompanied the correction of the excessively strong yen and expectations for a business recovery caused by the end of deflation. However, the economic situation in Japan continues to require close observation in the period ahead, as there will likely be a correction in share prices, which have continued to rise.

In this environment, the Takashimaya Group continued to implement structural reforms and worked to enhance its sales capabilities. Making the most of its advantage of having highly profitable companies, the Group combined its comprehensive strengths to improve its results.

### (2) Segment Information

Operating performance by segment is discussed below.

#### Department Stores

In the Department Stores segment, sales and other operating revenue increased 3.1% from the previous fiscal year, to 189,084 million yen. Operating income rose 8.0%, to 2,689 million yen.

The Takashimaya Group worked to bolster the sales base for its large stores, highlight their characteristics, and increase their ability to attract customers using “reforming the department store business in Japan” as its slogan. Among its large stores, the Yokohama store remodeled its sales floors for women’s clothing and general merchandise as part of a building-wide renovation project. Sales for the store grew steadily as a result. In the meantime, a new commercial facility that opened in the Umeda district added to the competition for the Osaka store. However, the Osaka store continued to increase revenues due to its renovation, along with the partial returning of the Nankai Kaikan Building and its community-based initiatives. The Nihonbashi store, which celebrated its 80th anniversary this year, also sustained strong results due to improving its ability to attract customers through cultural events linked to the “Art + Living: Takashimaya” exhibition held at the Setagaya Art Museum. In addition, sales increased for high-ticket items, such as select clothing, general merchandise, and jewelry, which had sustained steady results due to factors such as the asset effects of the share price hike. As a result of these developments, sales grew for all five large stores, allowing the department store business in Japan to post higher revenues and earnings.

Overseas, Takashimaya Singapore Ltd. posted additional growth in its revenues and earnings, reflecting strong sales from its seasonal campaigns for the Chinese New Year, Easter, and other holidays, and the exchange effects of the weaker yen.

### **Contract & Design**

The Contract & Design segment contributed 4,307 million yen in sales and other operating revenue, a decrease of 8.5% from the previous fiscal year, and operating income of 15 million yen, a decrease of 56.0% compared with the previous fiscal year.

Takashimaya Space Create Co., Ltd. posted a decline in sales and operating revenue, due to receiving fewer orders from operators of commercial facilities and other customers. Earnings for the segment also fell, due to the higher business expenses required to expand the housing reform business.

### **Real Estate**

The Real Estate segment's sales and other operating revenue increased 6.0% from the previous fiscal year, to 8,827 million yen. Operating income totaled 2,160 million yen, an increase of 10.3%.

Toshin Development Co., Ltd. posted higher revenues and earnings attributable to the strong results for the Tamagawa, Kashiwa, Nagareyama Otakanomori, and other shopping malls. Toshin Development Singapore Pte. Ltd. also posted an increase in revenues and earnings, reflecting greater rental income from specialty stores, which continued to experience good conditions, and the exchange effects of the weak yen.

### **Finance**

Sales and other operating revenue in the Finance segment decreased 0.6% from the previous fiscal year, to 3,034 million yen, while operating income fell 1.1%, to 1,069 million yen.

Takashimaya Credit Co., Ltd. maintained its sales and operating revenue from the previous fiscal year, due to stable overall shopping transactions, supported by the recovery in consumption and lower interest income. However, earnings for the segment declined, reflecting an increase in operating expenses such as sales promotion expenses and prior investments to improve credit management.

### **Other**

Sales and other operating revenue in the Other segment, including the Group's Cross Media Division, increased 12.3% from the previous fiscal year, to 8,753 million yen. The segment posted an operating profit of 63 million yen, compared with an operating loss of 123 million yen in the same period a year ago.

In the Cross Media Division, net media, catalog media, and television media performed solidly, allowing the segment to post a revenue increase.

## **2. Qualitative Information about Consolidated Financial Status**

Consolidated assets at the end of the quarter under review (as of May 31, 2013) amounted to 816,832 million yen, up 26,145 million yen from the end of the previous fiscal year (February 28, 2013), mainly due to an increase in notes and accounts receivable and a rise in investment securities. Consolidated liabilities rose 16,378 million yen from the end of the previous fiscal year, to 471,622 million yen, primarily reflecting an increase in notes and accounts payable. Consolidated net assets reached 345,209 million yen, up 9,766 million yen from the end of the previous fiscal year.

Consolidated cash and cash equivalents at the end of the first quarter (May 31, 2013) totaled 69,021 million yen, up 5,041 million yen from the end of the previous fiscal year (February 28, 2013). Net cash provided by operating activities came to 9,836 million yen, an increase of 5,408 million yen from the same period a year ago. The result mainly reflects an increase of 3,876 million yen in notes and accounts payable.

Net cash used in investment activities totaled 7,621 million yen, a decrease of 3,149 million yen from the first quarter of the previous fiscal year. The result is primarily due to a 1,894 million yen increase in purchases of tangible and intangible fixed assets, a 4,530 million yen fall in purchases of time deposits maturing after three months, and a 690 million yen decline in purchases of stocks in subsidiaries and affiliates.

Net cash provided by financing activities was 227 million yen (compared with net cash of 17,723 million yen used for financing activities in the first quarter of the previous fiscal year). These results were mainly attributable to a 20,230 million yen decrease in the repayment of long-term loans payable and a 2,300 million yen decline in the proceeds from long-term loans receivable.
