# Takashimaya Company, Limited

Takashimaya Reports Earnings for the Six Months Ended August. 31, 2015

Tokyo, Japan October 9, 2015—Takashimaya Company, Limited (TSE Security Code 8233) announced consolidated sales and other operating revenue of 449,782 million yen for the second quarter (ended August 31, 2015) of the fiscal year ending February 29, 2016, and net income of 11,038 million yen, or 27.60 yen per diluted share.

Qualitative Information about Consolidated Operating Results

## **Summary of Operating Results**

During the cumulative consolidated second quarter (March 1 - August 31, 2015), the Japanese economy showed signs of recovery, albeit modest. A major beneficiary of this economic recovery was the department stores industry, which saw increased sales thanks to an increase in inbound demand reflecting the rising numbers of foreign visitors. However, the economic outlook has become pessimistic following lower-than-expected personal consumption in Japan and a marked decline in global commodity prices and stock prices.

Against this backdrop, the Takashimaya Group took steps to improve its business performance by enhancing its sales capabilities.

Consequently, total consolidated sales and other operating revenue for the Takashimaya Group was 449,782 million yen (up 1.8% compared with the corresponding period of the previous fiscal year). Consolidated operating income was 13,820 million yen (up 13.1% compared with the corresponding period of the previous fiscal year), consolidated ordinary income was 16,213 million yen (up 14.2% compared with the corresponding period of the previous fiscal year), and consolidated net income for this half was 11,038 million yen (up 15.2% compared with the corresponding period of the previous fiscal year).

Operating performance by segment is discussed below.

## **Department Stores**

The Department Stores segment reported a strong performance. As a result of measures taken to capitalize on the still-strong inbound demand, tax-free sales trebled compared with the previous year, and large stores achieved a near double-digit increase in out-of-store sales.

As part of the merchandise policy, the segment strengthened net sales promotion measures to accompany changes in the timing of clearance sales. It also enriched the seasonal merchandise in line with customer needs. For example, from June 17, the Group invested in best-selling items as part of the "Summer Wave" campaign, and from July 29, it bolstered the early autumn merchandise plan, focusing particularly one piece dresses, as part of the "Summer & Autumn" campaign. These measures bore fruit in the form of a significant increase in net sales.

The Omni-channel retail strategy was focused on developing sales in a way that plays to the company's strengths. As part of this strategy, efforts were made to drive forward the integration of store operations and net operations and to stock the Takashimaya Online Store with chugen (midsummer) gifts, Father's Day gifts, and other products such that it becomes one of the best stocked department store-owned online shopping sites. This strategy led to a double-digit increase in sales.

As for attracting customers, the Group drew a broad range of customers to its stores by holding family-oriented events during the summer vacation, examples of which include "Jackie and the twins Lulu and Lolo Go on Summer Vacation," "Chuggington Land Mini," and "The Dark Makeup House."

Regarding the situation overseas, Takashimaya Singapore Ltd. reported increased revenue and earnings. On top of the robust domestic demand, the Singapore store achieved excellent sales among card-carrying customers thanks to the success of customer retention measures, which including a strengthening of the privilege system enjoyed by Takashima loyalty card holders, and its performance was further buoyed by a favorable exchange rate due to the weak yen.

Shanghai Takashimaya endeavored to rebuild its product structure on the theme of family and lifestyle and strengthened customer services, and it achieved strong sales for ladies goods, children's clothing, and food products. The store further contributed to its success by strengthening exhibitions held in event spaces and promoting sales in newly-introduced bonded products. Operating loss was down significantly compared to last year owing to a cut in sales and administration expenses, including rent.

Consequently, sales and other operating revenue were 392,852 million yen (up 0.9% compared with the corresponding period of the previous fiscal year), and operating income was 5,376 million yen (up 9.2% compared with the corresponding period of the previous fiscal year).

## **Contract & Design**

Revenue was up in the Contract & Design segment thanks to Takashimaya Space Create Co., Ltd.'s favorable performance with regard to construction work orders for commercial facilities and other large buildings. Operating income was increased due to the successful acquisition of highly profitable orders from hotels and similar facilities.

Consequently, sales and other operating revenue were 14,004 million yen (up 17.6% compared with the corresponding period of the previous fiscal year), and operating income was 761 million yen (up 79.4% compared with the corresponding period of the previous fiscal year).

#### **Real Estate**

In the Real Estate segment, Toshin Development Co., Ltd. reported robust revenue and earnings among its existing shopping centers, notwithstanding the slump that followed the surge in demand ahead of the consumption tax hike in March last year. The sector endeavored to increase revenue through a variety of initiatives. In the Tamagawa area, it strengthened measures to respond to an increase in the number of visitors following the second-phase development of Rise (peripheral high-rise commercial facilities), and it also took measures to cater to inbound demand, particularly in the Shinjuku and Namba areas. Hakata Riverain also saw a significant increase in income. Opening the "Takashimaya Kids' Patio" gave rise to a multiplier effect with the family-oriented tenants, which opened last year, leading to increased use among three generations. As for Toshin Development Singapore Pte., Ltd., revenue and earnings were positive thanks to an increase in rent income and a favorable exchange rate.

Consequently, sales and other operating revenue were 19,647 million yen (up 4.5% compared with the corresponding period of the previous fiscal year), and operating income was 5,021 million yen (up 14.2% compared with the corresponding period of the previous fiscal year).

#### **Finance**

In the Finance segment, revenue and earnings were strengthened thanks to the success of Takashimaya Credit Co., Ltd.'s acquisition strengthening program and members' services improvement program, which were enacted as part of a program to commemorate the thirtieth anniversary of the launch of the card, and also because of the satisfactory income from handling fees for affiliate cards.

Consequently, sales and other operating revenue were 6,353 million yen (up 3.8% compared with the corresponding period of the previous fiscal year), and operating income was 2,184 million yen (up 5.8% compared with the corresponding period of the previous fiscal year).

### Other

The Cross Media Division reported a strong performance. Catalogue media saw increased sales owing in part to the success of new measures such as partnerships with mail order companies, and net and television media also expanded sales compared to the previous year.

The R. T. Corporation Co., Ltd. achieved satisfactory sales in its restaurants "Din Tai Fung" and "Sweet Dynasty." It increased revenue and earnings further by pursuing cost-cutting measures.

Consequently, sales and other operating revenue were 16,924 million yen (up 9.6% compared with the corresponding period of the previous fiscal year), and operating income was 381 million yen (up 2.1% compared with the corresponding period of the previous fiscal year).

#### **Summary of Financial Status**

Assets at the end of the consolidated second quarter of the fiscal year totaled 972,881 million yen, down 6,730 million yen compared with the corresponding period of the previous fiscal year. This was mainly due to a decrease in cash, savings, and short-term securities. Liabilities totaled 558,551 million yen, down 12,582 million yen compared to the corresponding period of the previous year. This was mainly due to a decline in short term loans payable. Net assets totaled 414,329 million yen, up 5,852 million yen compared to the corresponding period of the previous year due to a rise in retained earnings.

Regarding cash flows provided by operating activities, income totaled 8,061 million yen, down 12,633 million yen compared to the corresponding period of the previous fiscal year. This was mainly due to a 4,197 million yen decrease in loss on the sale of short-term investment securities and investment securities, a 2,390 million yen decrease in inventory assets, and a 1,891 million yen increase in corporation tax payments and other tax payments.

Net cash used in investment activities was 6,342 million yen, a decrease of 100,538 million yen compared to the corresponding period of the previous fiscal year. This was mainly due to a 101,567 million yen decrease in the purchase of property, plant and equipment and intangible assets, a 6,397 million yen increase in gain on the sale of short-term investment securities and investment securities, and a 5,717 million yen decrease in gain on the sale of property, plant and equipment and intangible assets.

Net cash used in financing activities was 19,500 million yen (it was 17,526 million yen in the corresponding period of the previous fiscal year). This was mainly due to a 25,004 million yen increase in repayments of long-term loans, a 6,400 million yen decrease in proceeds from long-term loans payable, and a 5,580 million yen increase in purchase of treasury stock.

Accordingly, the cash and cash equivalents at the end of the consolidated second quarter of the fiscal year totaled 68,407 million yen, a decrease of 18,089 million yen from the corresponding period of the previous fiscal year.

This document is not subject of quarterly review procedures based on the Financial Instruments and Exchange Law.

In the time of disclosure of this document, review procedures of quarterly consolidated financial statements based on the Financial Instruments and Exchange Act had not been completed.
