Takashimaya Company, Limited

Takashimaya Reports Earnings for the Six Months Ended August 31, 2017

Tokyo, Japan October 10, 2017—Takashimaya Company, Limited (TSE Security Code 8233) announced consolidated operating revenue of 452,980 million yen for the second quarter (six months ended August 31, 2017) of the fiscal year ending February 28, 2018, and profit attributable to owners of parent of 9,012 million yen, or 22.67 yen per diluted share.

Summary of Operating Results

During the cumulative consolidated second quarter (March 1 - August 31, 2017), Japan continued on the path of moderate recovery with robust personal consumption. The Group's domestic department stores achieved an increase in sales amid the strong personal consumption and favorable inbound demand from foreign visitors. However, the outlook remains uncertain due to various global developments, including monetary tightening among Western countries, where there is a shift from ultra-relaxation to normalization of monetary policy, and the emergence of geopolitical risks in Asia.

Against this backdrop, the Takashimaya Group made efforts to improve its performance by pursuing the Group-wide Machi-dukuri Strategy. In addition to ensuring that the department stores fulfill their anchor role by drawing people to the area, we leveraged the expertise of group company Toshin Development, whose core business is commercial development, to integrate department store and specialty store shopping within a single building as part of a group-wide effort to maximize the appeal of its buildings and the surrounding areas.

Consequently, the consolidated performance was as follows: Total consolidated operating revenue for Takashimaya Group was 452,980 million yen (up 2.2% compared with the corresponding period of the previous fiscal year). Consolidated operating income was 13,893 million yen (up 0.8% compared with the corresponding period of the previous fiscal year), consolidated ordinary income was 15,636 million yen (up 3.9% compared with the corresponding period of the previous fiscal year), and consolidated net income attributable to owners of parent was 9,012 million yen (up 6.3% compared with the corresponding period of the previous fiscal year)

Operating performance by segment is discussed below.

Department Stores

The Department Stores segment posted sales and operating revenue of 396,702 million yen (up 3.1% compared with the corresponding period of the previous year), and operating income of 4,130 million yen (down 13.2% compared with the corresponding period of the previous fiscal year).

The Department Stores segment benefitted from the continued increasing trend in employee incomes accompanying the steady improvement in employment and income environment, stable personal consumption, and the favorable inbound demand from the end of last year. Sales of expensive goods were particularly strong, with specialty store Takashimaya Watch Maison achieving steady sales growth in luxury watches.

Regarding alliances with other companies, we continued to work with NTT DOCOMO and Loyalty Marketing, Inc. in a joint marketing campaign directed at both companies' customers and loyalty scheme membership.

We continued to pursue joint initiatives aimed at further capitalizing on inbound demand, including supporting NTT DOCOMO's initiative to distribute coupons to mobile phone and smartphone owners who visit Japan, extensively promoting sales via mobile payments services Alipay and WechatPayment, and implementing a joint promotional campaign with major Chinese online travel agency CTrip. These joint initiatives continued to prove successful, yielding significant year-on-year increases in sales and sales volume.

In April this year, an airport-style duty-free shop was opened in Takashimaya Times Square, Shinjuku, by A&S Takashimaya Duty Free, a joint venture with ANA Trading and Hotel Shilla (Head office: Seoul, South Korea). Integrating the airport-style duty-free shop with Shinjuku Store, we use the opening to promote awareness of the store among overseas visitors and expand sales.

The corporate business division's aggressive sales efforts paid off, resulting in a significant increase in revenue from newly acquired large orders.

Regarding overseas stores, Takashimaya Singapore Ltd. saw declining sales in the country amid the economic slowdown and falling numbers of overseas visitors.

Shanghai Takashimaya Co., Ltd. saw growing sales buoyed by strong personal consumption. The store continued to differentiate itself by promoting its Japanese-Goods Store, a retail space devoted to showcasing Japanese culture and selling Japanese goods. It also expanded its loyalty membership base by strengthening its loyalty card policies, and improved its customer retention, resulting in increased earnings.

Takashimaya Ho Chi Minh City, which opened in July last year, has made steady progress in developing its loyalty card membership. The store also strengthened its sales by incorporating customer feedback and jointly organized promotional events with specialty stores. These efforts proved successful and contributed to strong financial results.

Real Estate

The Real Estate segment posted sales and other operating revenue of 19,925 million yen (down 5.6% compared with the corresponding period of the previous fiscal year) and operating income of 5,100 million yen (down 6.0% compared with the corresponding period of the previous fiscal year)

To mark the 10-year anniversary of Nagareyama Otakanomori Shopping Center, which Toshin Development operates, the developer built a kids' zone in the shopping center featuring children's goods and a childcare facility (a crèche and breastfeeding area) in an effort to highlight the local area as a great place to raise a family. Consequently, the shopping center saw a year-on-year increase in tenant revenue and number of visitors. To mark the 25-year anniversary of Kashiwa Takashimaya Station Mall, Toshin Development strengthened the fashion area, which targets working people in their 30s and 40s, and created a large bookshop floor catering to a broad range of customers. The developer will continue to gradually renew the mall, taking advantage of the fact that it adjoins JR Kashiwa Station.

As for overseas real estate, Saigon Centre, which opened for business in Ho Chi Minh City July last year, has been providing a shopping environment with a high standard of quality, safety, and peace of mind, thereby garnering considerable support from customers. In March this year, we acquired a portion of the property rights for A & B Tower, which we intend to use to further our Machi-dukuri Strategy in the city.

Finance

The Finance segment posted sales and other operating revenue of 7,197 million yen (up 7.2% compared with the corresponding period of the previous fiscal year) and operating income of 2,243 million yen (down 2.6% compared with the corresponding period of the previous fiscal year).

In this segment, Takashimaya Credit Co., Ltd. marked the tenth anniversary of the "gold" Takashimaya card by conducting a campaign to acquire new members and promote use of the card. It also endeavored to improve commission revenue by increasing the number of members and the amount of card transactions. These efforts yielded an increase in earnings.

Contract & Design

The Contract & Design segment posted sales and other operating revenue of 13,368 million yen (down 6.1% compared with the corresponding period of the previous fiscal year) and operating income of 738 million yen (down 14.5% with the corresponding period of the previous fiscal year).

In this segment, Takashimaya Space Create Co., Ltd. made steady progress in construction work for large hotels and department stores, but with a reactionary decline following last year's large project, the segment posted a decrease in revenue and profits.

Other

The Other segment, including Contract & Design, posted sales and operating revenue of 15,786 million yen (down 5.3% compared with the corresponding period of the previous fiscal year) and operating income of 1,353 million yen (up 202.2% compared with the corresponding period of the previous fiscal year).

Regarding the Cross Media Division specifically, the segment's steady expansion of sales in the net media business and its efforts to improve profitability by revising its catalogue media policies contributed significantly to the above results.
