Takashimaya Company, Limited

Takashimaya Reports Earnings for the Nine Months Ended November 30, 2019

Tokyo, Japan December 26, 2019—Takashimaya Company, Limited (TSE Security Code 8233) announced consolidated operating revenue of 676,639 million yen for the third quarter (ended November 30, 2019) of the fiscal year ending February 29, 2020, and profit attributable to owners of parent of 16,447 million yen, or 78.29 yen per diluted share.

Qualitative Information about Consolidated Operating Results

During the cumulative consolidated third quarter (March 1 to November 30, 2019), the Japanese economy expanded moderately, underpinned by an improved employment rate. However, Japan's economic growth was held back by a global slowdown, caused in part by the protracted US-China trade friction. Economic growth looks set to remain slow amid concerning economic indicators. One such concern is personal consumption, which hit a lull following the surge ahead of October's consumption tax hike and has been further weakened by natural disasters. Another concern is a slowdown in capital investment.

Against this backdrop, the Takashimaya Group advanced the Machi-dukuri Strategy. We worked with our commercial developer, Toshin Development Co., Ltd. and other group companies in a synergistic effort to maximize the appeal of our commercial facilities and their surroundings. For example, we made sure that each department store fulfills its anchor role of drawing people to the area, and we pursued our vision of integrating the department store with specialty stores inside a single building.

In March this year, Nihombashi Takashimaya Shopping Center, a new symbol of the Machi-dukuri Strategy, fully opened following the refurbishment of the Nihombashi Store, the shopping center's main building. The specialty stores have won new customers among young families in the Tokyo Bay area and office workers, and have drawn more foot traffic into the center's department store component.

Alongside these efforts, we used digital technology to adapt to customers' increasingly diverse needs and to streamline work processes. In our online business, we addressed needs of customers to choose properly online or instore shopping and worked to make both forms more pleasant and convenient.

Additionally, we joined RE100 and EV100, two global initiatives bringing together businesses committed to a sustainable future. In joining RE100, we have committed to source 100% of our energy from renewable sources. In joining EV100, we have committed to convert our entire fleet of vehicles to electric. We will continue to engage in sustainability challenges in the medium and long term.

Consequently, the consolidated performance was as follows: Total consolidated operating revenue for Takashimaya Group was 676,639 million yen (up 2.6% compared with the corresponding period of the previous fiscal year), consolidated operating income was 20,261 million yen (up 4.5%), consolidated ordinary income was 19,403 million yen (down 15.2%), and consolidated profit attributable to owners of parent was 16,447 million yen (up 43.8%).

As of the cumulative consolidated first quarter under review, we have applied New Leases Standard (IFRS16 Leases) in overseas subsidiaries, which follow International Financial Reporting Standards.

Operating performance by business segment is discussed below.

Department Stores

The Department Stores segment posted sales and other operating revenue of 580,399 million yen (up 1.2% compared with the corresponding period of the previous fiscal year), and operating income of 6,563 million yen (up 5.8%).

Domestic department stores achieved an increase in sales thanks to the boost in demand ahead of the October consumption tax hike. This surge offset a decline in sales among inbound tourists, which reflected exchange rates. It also offset the post-hike lull in sales, as well as the impact of natural disasters, among domestic customers.

Sales among inbound tourists were down year-on-year too, due in part to exchange rates.

Regarding store development, we focused on providing rest spaces and facilities that exhibit everyday culture. As part of the refurbishment of Nihombashi Store, we created a rooftop garden space covering a total of 6,000 m2 (including the main, new, and eastern buildings) as well as a new driveway and entranceway with high-class service. We also opened Takashimaya Archives Tokyo, a second cultural facility to Osaka's Takashimaya Archives.

Regarding Konandai Store, we plan to close the store in August 2020. Regarding Yonago Store, we have agreed to sell our stake in Yonago Takashimaya to a local firm in March 2020. Under the agreement, we will license our trademarks and offer our support to the partner, ensuring that the store continues to operate as before.

Regarding merchandise development, we continued efforts to develop shopping spaces that embody the curatorial prowess of a department store. In October, Osaka Store opened Takashimaya Farm, a self-curated shop with a selection of food products emphasizing taste and food safety. In November, Good Morning Table, which sells confectionary and other snacks using materials from Hokkaido, became the first tenant to open in the new extended area of Yokohama Store. This area will be fully operational in spring 2021.

Regarding efforts to attract customers, for customers in general, we modified our approach to sales by deploying store concierges, especially in the larger stores. Additionally, reflecting the shift to cashless payments, we made all our stores compatible with d-barai ("d Payment"), NTT Docomo's mobile payment service, to make the payment process easier for customers. For inbound tourists, we sought to capitalize on inbound demand by making shopping spaces more tourist-friendly, such as by introducing more cashless payment and simplifying duty-free procedures. We also continued efforts to proactively attract overseas customers in collaboration with overseas travel, financial, and transport businesses.

Regarding cultural events, an exhibition titled "The Ichikawa Ebizo Exhibition — Commemorating his Succession to the Stage-Name of Ichikawa Danjuro Hakuen XIII" was held in Nihombashi, Osaka, Yokohama, and Kyoto stores. The exhibition featured photos, film footage, and valuable items on Ichikawa Ebizo XI, a beloved Kabuki actor. During the last three months of the 2019, Takashimaya Archives Tokyo hosted an exhibition titled "Design Department Store: Hyakka Ryoran, boutique design." Focusing on the works of Yasuo Kondo, the exhibition showcased designs from 1980s, 1990s, and 2000s.

Regarding overseas stores, Takashimaya Singapore revamped parts of the store area last year, and saw a significant increase in sales as a result. Although operating revenue decreased as a result of applying the New Leases Standard (IFRS 16 Leases), operating income increased. Shanghai Takashimaya continued to operate following the cancellation of the closure, which had been scheduled for August. The store posted increased revenue and income, having benefitted from a closing-down sale. Ho Chi Minh City Takashimaya, likewise, posted increased revenue and income, reflecting the success of the store's seasonal events. Siam Takashimaya, which opened in November last year, is working to grow sales by organizing promotional campaigns that comport with local retail practices.

Commercial Property Development

The Commercial Property Development segment posted sales and other operating revenue of 33,788 million yen (up 7.1% compared with the corresponding period of the previous fiscal year) and operating income of 7,527 million yen (up 7.7%).

In Japan, Toshin Development Co., Ltd. continued to advance the Machidukuri Strategy. Focusing on the food floor of Tamagawa Takashimaya Shopping Center, which celebrated its 50th anniversary, Toshin worked on refurbishments designed to shift the shopping center's concept from a place for shopping to a place that for gathering and spending time, as well as shopping.

In Vietnam, Toshin expanded its portfolio. Adding to Saigon Centre in Ho Chi Minh City and the Hanoi real-estate project Starlake, the developer acquired a stake in a local entity that owns and operates Indochina Plaza Hanoi, a mixed retail and office building in the city.

In Singapore, Toshin Development Singapore Pte. Ltd. increased its revenue after the subsidiary raised the percentage rent among its tenants. The company also recorded an increase in operating income, which reflects the fact that we changed our accounting standards after applying IFRS (16 Leases).

In the quarter under review, this reportable segment was renamed from Real Estate to Commercial Property Development. This renaming does not imply any change in segment information. Rather, the purpose of the new name is to better describe how the segment operates under the Machi-dukuri Strategy. That is, in addition to developing and managing commercial property, the developer works to create synergy with the Department Stores segment. The segment information for the same quarter last year uses the new segment name.

Also in this quarter under review, Takashimaya Group's scope of consolidation expanded with the acquisition of Globaland Limited. Hanoi Residential and Commercial Centre (HRCC). and Gateway

Finance

The Finance segment posted sales and other operating revenue of 13,002 million yen (up 9.6% compared with the corresponding period of the previous fiscal year) and operating income of 3,877 million yen (down 5.8%). As of the first quarter, the Finance segment includes Takashimaya Hoken Co., Ltd.

In this segment, Takashimaya Credit Co., Ltd. worked to increase its commission revenue by growing its membership and increasing transaction volume. For example, it launched a premium card (Takashimaya Premium) for top-spending out-of-store sales customers, as well as a same-day card issuance service in large stores. Takashimaya Hoken Co., Ltd., worked to expand operating revenue by boosting sales of consulting services. For example, the insurer launched a new insurance service in Nihombashi Store.

Contract & Design

The Contract & Design segment posted sales and other operating revenue of 22,726 million yen (up 29.1% compared with the corresponding period of the previous fiscal year) and operating income of 1,286 million yen (up 131.4%)

In this segment, Takashimaya Space Create Co., Ltd. saw increases in orders for accommodation and shopping facilities amid a demand boost in the run-up to Tokyo 2020. Consequently, the segment posted increases in operating revenue and operating income.

Other

The Other segment, which includes the Cross Media Division, posted sales and other operating revenue of 26,720 million yen (up 6.6% compared with the corresponding period of the previous fiscal year) and operating income of 1,660 million yen (up 13.0%).

The increases in operating revenue and operating income reflect strong catalogue order sales in the Cross Media Division. They also reflect improved performance in other companies under this segment, such as Takashimaya Transcosmos International Commerce Pte. Ltd. and Select Square Co., Ltd.

This document is not subject of audit procedures based on the Financial Instruments and Exchange Act. At the time of disclosure of this document, audit procedures of financial statements based on the Financial Instruments and Exchange Act had not been completed.
